IMPORTANT SAFETY INSTRUCTIONS

READ AND FOLLOW ALL INSTRUCTIONS!

⚠️ WARNING: Risk of personal injury. Do not permit children to use this bathtub without adult supervision.

⚠️ WARNING: Risk of electric shock. Do not permit electrical appliances near any bathtub when bathtub contains water.

⚠️ WARNING: Risk of hyperthermia and possible drowning. People using medications and/or having adverse medical history should consult a physician before using this product.

⚠️ WARNING: Risk of personal injury. Do not overfill bathtub before entering. Entering tub when filled more than 2/3 can cause overflow and slippery conditions. Exercise caution when entering and exiting.

⚠️ WARNING: No Food or Alcoholic Beverages. Use of your bathtub immediately after meals is not recommended. Avoid alcohol consumption before or during bathing. Alcoholic beverages can cause drowsiness or hyperthermia resulting in loss of consciousness or even drowning.

⚠️ WARNING: Pregnancy. If you are or think you may be pregnant, consult your physician before using the bathtub.

Use this unit only for its intended use as described in this manual. Do not use any attachments not recommended by American Standard.

The unit must be connected only to a supply circuit that is properly protected by a ground-fault circuit-interrupter (GFCI). Such a GFCI should be provided by the installer and should be tested on a routine basis. To test the GFCI, push the test button. The GFCI should interrupt power. Push the reset button. Power should be restored. If the GFCI fails to operate in this manner, the GFCI is defective. If the GFCI interrupts power to the bathtub without the test button being pushed, a ground current is flowing, indicating the possibility of an electric shock. Do not use this air bath. Disconnect the air bath and have the problem corrected by a licensed electrician before using.

SAVE THESE INSTRUCTIONS
Operation: AIR MASSAGE SYSTEM

BATHING:
• Close drain by rotating Drain Overflow Knob COUNTER-CLOCKWISE.
• Fill bath with water at a comfortable bathing temperature, adding bath oils or salts as desired.

OPERATING AIR MASSAGE SYSTEM:

![Air Massage Button Diagram]

<table>
<thead>
<tr>
<th>Button</th>
<th>Function</th>
</tr>
</thead>
<tbody>
<tr>
<td>ON/OFF:</td>
<td>Press this button once to turn air-blower on.</td>
</tr>
<tr>
<td></td>
<td>Press again to turn air blower off.</td>
</tr>
<tr>
<td>AIR SPEED INCREASE:</td>
<td>Pressing this button will increase to the next higher speed.</td>
</tr>
<tr>
<td>AIR SPEED DECREASE:</td>
<td>Pressing this button will decrease to the next lower speed.</td>
</tr>
<tr>
<td>WAVE FUNCTION:</td>
<td>Press this button to start the wave function (button will light).</td>
</tr>
<tr>
<td></td>
<td>Blower speed will continuously vary between high and low.</td>
</tr>
<tr>
<td></td>
<td>Press again to exit wave function (button light will go out).</td>
</tr>
</tbody>
</table>

EXITING THE BATH:
• Be sure to turn-off the air-blower before draining bath.
• Open drain by rotating Drain Overflow Knob CLOCKWISE.

AUTO-PURGE:
To remove any residual water from the air hoses that may collect after using your air massage system, the blower will automatically turn on 60 minutes after you turn the system off, and it will run for 30 seconds. During the 60-minute countdown the Air Massage button light will flash every 4 seconds. To force the purge to occur sooner, press and hold the on/off button for 4 seconds and the purge will begin immediately.

You can also set the system to purge automatically at the same time each day using the 24-Hour Purge timer. This is recommended if the tub is used for showering or bathing without the Air Massage being run, or if the Auto-Purge occurs at an inconvenient time. Note that the 24-Hour Purge cannot be set while the 60-minute Auto-Purge is waiting to be run. In this case, you must first force the purge using the procedure above.

To turn the 24-Hour Purge feature on, wait for the time of day that you want the purge run and simply hold the Air Massage button down for 8 seconds. When the command is accepted, all lights on the panel will flash and the blower will begin running. Release the button. After 30 seconds the blower will stop and the Air Massage button light will flash every 8 seconds indicating that the 24-Hour Purge feature is active.

To turn the 24-Hour Purge feature off, hold the Air Massage button down for 8 seconds. The panel lights will flash indicating that the command has been accepted, but the blower will remain off. Release the button. In the event of a power outage, the 24-Hour Purge feature will need to be re-programmed.
Operation: SYSTEM I WHIRLPOOL with CHROMATHERAPY

BATHING:
- Fill bath with water at a comfortable bathing temperature - If your whirlpool is equipped with the optional EZ-Heater, it will automatically maintain the water temperature.
- IMPORTANT: Do NOT fill the whirlpool more than 2/3 full before getting in, as it may overflow.
- IMPORTANT: Do NOT add bath oils or salts – this will damage the whirlpool pump.
- IMPORTANT: Water level must be at least one inch (25mm) above the highest jet before the whirlpool is started
  Operating the system without water (dry running) for extended periods will cause pump damage and void the warranty.

OPERATING WHIRLPOOL and CHROMATHERAPY SYSTEM:

<td>Change “Down” to previous color</td>
</tr>
<tr>
<td><img src="image" alt="Color Cycle Function" /></td>
<td>Color Cycle Function</td>
</tr>
</tbody>
</table>

WHIRLPOOL CONTROL:
Press this button to turn whirlpool pump on or off.

LIGHTS CONTROL:
Press this button to turn chromatherapy lights on or off.

UP:
Press this button to change “up” to the next color.

DOWN:
Press this button to change “down” to the previous color.

WAVE/CYCLE FUNCTION:
Press this button to start the cycle function (button will light). Light color will continuously cycle through the spectrum. Press again to exit cycle function (button light will go out). FAVORITE COLOR – If you stop the Cycle Function on a particular color, the system will automatically return to this color the next time it is used.

AIR VOLUME CONTROL ADJUSTMENTS: Water turbulence is determined by the amount of air mixed with the water. Rotate the air volume control counterclockwise for more turbulence, and clockwise for less.

FLOW JET VOLUME ADJUSTMENTS: Water flow-levels can be adjusted from vigorous to soft by rotating the nozzle counterclockwise for vigorous and clockwise for soft.
Operation: SYSTEM II WHIRLPOOL with CHROMATHERAPY

BATHING:

AIR VOLUME CONTROL ADJUSTMENTS: Water turbulence is determined by the amount of air mixed with the water. Rotate the air volume control counterclockwise for more turbulence, and clockwise for less.

FLOW JET VOLUME ADJUSTMENTS: Water flow-levels can be adjusted from vigorous to soft by rotating the nozzle counterclockwise for vigorous and clockwise for soft.
Your American Standard air bath is designed to give you many years of pleasure with reasonable care and maintenance.

Your new acrylic bathtub is tough, durable and easy to care for. The colors have been formulated to match other American Standard fixtures and enhance your choice of bathroom decorations. The high gloss surface will retain its lasting luster with proper care and maintenance.

CLEANING AND MAINTENANCE:
• Always fill the tub with temperate water. Excessively hot water (greater than 130˚ F) may cause surface damage.

• Remove bath mat after use and hang to dry. Allowing bath mat to dry in the tub may cause surface damage.

• Clean after use with a mild liquid household detergent cleaner.  
  **Do not use:** Lestoil® Cleaner; Lysol® Disinfectant (spray or concentrate); or Lysol® Basin, Tub and Tile Cleaner; Windex® Cleaner; Mr. Clean® Cleaner; Dow® Disinfectant Bathroom Cleaner*; or other cleaning products in aerosol cans.

HARSH CHEMICALS, SHARP AND ABRASIVE OBJECTS SHOULD NEVER BE USED ON ACRYLIC SURFACES:
• Do not use wire brushes, knives or sharp objects to remove stains or other surface blemishes.

• Use of abrasive cleaners or powders will dull the surface. If the glossy surface loss its sheen, dulled areas can be partially restored by rubbing with a white automotive body polishing compound and waxing with a liquid wax.

  **Do not wax surfaces where you walk or stand.**

• Do not allow nail polish remover, acetone, dry-cleaning fluid, paint remover, or other solvents to come into contact with the surface.

• Clean the surrounding surface immediately after using caustic drain cleaners.

• Burning cigarettes will irreparably damage the surface of the whirlpool.

AS AMERICA, INC. LIMITED LIFETIME WARRANTY FOR LUXURY ACRYLIC WHIRLPOOLS

AS America, Inc. ("American Standard") warrants to the original consumer purchaser that it will, at its option, repair or replace this whirlpool or any of its parts that are found by American Standard, in its sole judgment, to be defective under normal residential use and maintenance so long as it is owned by the original consumer purchaser.

This warranty shall only become effective upon receipt by American Standard of a Warranty Registration evidencing proof of purchase.

This limited warranty does not apply to commercial installations. The warranty for commercial installations is three (3) years.

THIS WARRANTY SHALL BE VOID IF THE ACCESS PANEL TO THE WHIRLPOOL IS COVERED IN ANY MANNER CONTRARY TO THE INSTALLATION INSTRUCTIONS. In no event will American Standard be liable for the cost of repair or replacement of any installation materials including but not limited to tiles, marble etc.

This limited warranty DOES NOT COVER the following:

1. Defects or damages arising from shipping, installation, alterations, accidents, abuse, misuse, lack of proper maintenance and cleaning as directed in the owner’s manual and use of other than genuine American Standard replacement parts, in all cases whether caused by a plumbing contractor, service company, the owner or any other person.

2. Deterioration through normal wear and tear and the expense of normal maintenance.

3. Commercial application.

4. Options and accessories. American Standard’s limited warranty on these items is one year for parts only and excludes labor.

   This one year limited warranty covers accessories manufactured by American Standard (e.g. aprons, drains, grab bars, heaters, trim kits) against defects of material or workmanship. Warranty coverage begins on the date the accessory was originally purchased by the owner.

5. Postage or shipping costs for returning products for repairs or replacement under this limited warranty and labor or other costs incurred in connection with product removal or installation under this limited warranty.

6. ANY LIABILITY FOR CONSEQUENTIAL OR INCIDENTAL DAMAGES, ALL OF WHICH ARE HEREBY EXPRESSLY DISCLAIMED, OR THE EXTENSION BEYOND THE DURATION OF THIS LIMITED WARRANTY OF ANY IMPLIED WARRANTIES, INCLUDING THOSE OF MERCHANTABILITY OR FITNESS FOR AN INTENDED PURPOSE. (Some jurisdictions do not allow limitations on how long an implied warranty lasts, or the exclusion or limitation of incidental or consequential damages, so these limitations and exclusions may not apply to you.)

7. Responsibility for compliance with local code requirements. (Since local code requirements vary greatly distributors, retailers, dealers, installation contractors and users of plumbing products should determine whether there are any code restrictions on the installation or use of a specific product.)

This limited warranty gives you specific legal rights. You may have other statutory rights that vary from state to state or from province to province, in which case this limited warranty does not affect such statutory rights.

For service under this warranty, you should contact the following:
